About Alhidayah School

Alhidayah School is an educational institution focused on establishing a strong foundation for Muslim children especially during their formative years, as well as, raising them in an understanding Islamic environment and culture. The school is guided by Islamic principles and follows the Ontario curriculum that is approved by the Ministry of Education. We offer high quality education to every child based on their stage of growth. Our educational system and curriculum have various phases of education ensuring that the child gains the necessary foundational skills required to help him/her in their next stage in life.

Alhidayah School has highly educated and qualified teaching and administrative staff who ensure that the Muslim kids obtain adequate services in all aspects and on different levels. All students in our institution are well behaved and are taught how to accommodate their fellow students. The school is driven by latest tools, systems, and technologies; hence your children will enjoy an entire friendly ecosystem that has been uniquely designed for the sake of providing excellent education.

By Alhidayah Team 😊

Alhidayah School offers the following:

Our Mission and Vision

Alhidayah School is dedicated to providing our students with the highest level of academic, practical, and Islamic knowledge that will enable them to succeed in their lives and practice Islam in their future endeavors. Our goal is to provide our students with a high-quality education that will assist them in comprehending their areas of specialty in an Islamic environment.

Mission

To raise pioneer successful Muslim generations. Alhidayah School is an Islamically guided educational institution; hence, we focus on developing a generation with a strong and authentic Islamic foundation. We follow the Ontario curriculum that is approved by the Ministry of Education with Islamic teachings to foster strong Islamic principles in our children.

Vision

Guiding Principles

Islamic

Alhidayah School is fully subject to our moderate Islamic principles in all teaching areas. We embrace the Holy Book of Al-Qur'an as the primary guideline in our teachings while incorporating all aspects of education, technology, lifestyle and other matters.

Modernity

We recognize that the world is changing at a very fast rate in terms of technology and the way of doing things. Therefore, we work hard to utilize the latest technologies in our teaching while practicing well-known and proven education methods.

Students First

Alhidayah School gives priority in all matters to students. All the decisions made by the board members revolve around the students. We aim to ensure that our students are fully comfortable within the school environment and are receiving top quality education and services.

Authenticity

At Alhidayah School, the values of the school, principles, and actions are all aligned. We place a great value on the school's personality and image despite the surrounding challenges. We do not compromise our values and principles due to any external factor.

Relationships

We recognize that education has three key shareholders: students, teachers, and families. Therefore, we strive at ensuring a strong connection between all entities. All our teachers are easily accessible to both parents and students.

Holistic Education

We embrace a learning approach that enables us to unleash all aspects of the student's personality in terms of emotions, intellect, body, and imagination. The approach ensures an effective and comprehensive methodology for students in their learning.

Our Students

Our students come from all walks of life, bringing together various life diversification. We care a lot about having them among the top-performing students in academic and co-curricular activities across the region. We work hard to ensure that they have understood and able to apply the good values that they need in life.

Our Students

01

Diversified

We enroll students of diverse backgrounds. Therefore, in our institution, your child will interact with children coming from various Muslim cultures. Our staff is usually on the check to ensure that your children picks up the good habits and are well integrated.

02

Connected

The students are taught how to interact among themselves through class activities and in co-curriculum programs. Therefore, we ensure that your children do not feel lonely while in school and we help them develop social skills by making friends.

Our Students

03

Happy Learners

We aim to have the most joyous students in the region. We have made their environment so comfortable and designed an easy access system to parents, teachers, and fellow students. When a child is happy, he/she develops a satisfied mind that can be able to learn without distractions.

04

Fully Supported

Alhidayah School has a support system for every student in the school. The teaching and non-teaching staff within the organization work together to ensure that the students are able to overcome any challenges in their studies and school life.

The School Team

Welcoming

When you get into the school environment, you will meet staff members who will welcome you and try to understand your needs and how they will be addressed. If it is a new student, we have a process in place that ensures new students are well inducted into the school programs.

Friendly

We have made it easy for anyone to feel comfortable while within the school environment. All our staff has been educated on how to interact with visitors, new students, and previous students. Our students have been taught the Islamic principles of peace and love hence ensuring that students can relate with ease.

Caring

Islamic principles put a very strong emphasis on looking after one another. Therefore, since we are an institution guided by the Islamic religion, we have incorporated the art of caring among every person in the school. This allows achieving a successful educating environment.

Tolerant

Alhidayah School has staff members and students who have been trained to have an easy going and tolerant character. We allow open discussions from the school team and parents. We then evaluate the opinions based on school values and Islamic principles.

Teaching Materials

Alhidayah School employs the Ontario education curriculum in all the teaching stages. As a result, we use the teaching materials recognized by the Ministry of Education. The school has enough teaching materials that can serve all our students to ensure the teaching runs smoothly and effectively.

The school has a modern resources and equipment including all the necessary teaching materials that the students need throughout the year. All our teachers use these teaching materials together with evaluation materials to ensure that they achieve all the desired teaching objectives.

The Curriculum

Alhidayah School is dedicated to providing our students with the highest level of academic, practical, and Islamic knowledge that will enable them to succeed in their lives and practice Islam in their future endeavors. Our goal is to provide our students with a high-quality education that will assist them in comprehending their areas of specialty.

At all the stages of the curriculum, there are set curriculum objectives by the ministry of education, which we always aim to achieve through our experienced teaching staff. We merge these objectives with our Islamic education curriculum which relies on the Holy Qur'an and the Sunnah of the Prophet Moḥammad (peace be upon him).

Our Teachers

Alhidayah School is very careful and selective when it comes to its teaching staff. We only rely on fully qualified teachers who understand and practice the school principals, Islamic religion, and education. We ensure that our teachers interact with both parents and students equally to overcome any challenges or issues.

Our Teachers

The teaching staff at Alhidayah School is well experienced and professional. Our teachers have sufficient experience in modern teaching, Islamic religion, and the Ontario education level system. They also understand the level of professionalism required in their area of practice.

Experienced & Professionals

The teachers at Alhidayah School are fully certified, trained and prepared to lead their education career. Therefore, they have all undergone the necessary teaching practice to be well equipped to handle our students.

Accredited & Certified

At Alhidayah School, we do not just employ any teacher. We go for teachers who hold high and accredited degrees such as PhD, masters, and education diploma certifications issued from recognized universities and colleges. The aim is to ensure that our students get high quality services from top qualified Muslim teachers.

High-Degree Holders

Our Teachers

Our teachers are fully trained to teach both Islamic and Ontario education curriculum. At the institution, we also organize workshops and training programs for our teaching staff to ensure that they are equipped with the trending education technology and latest methods of teaching.

Well Trained

Our teachers are well harmonized to ensure they deliver a standard quality of education to our students. At the institution, we always work towards embedding certain Islamic principles and education aspects in all the students. All this is achieved through training our teachers on high standards.

Harmonized

The results and achievements in our school are all attributed to our teaching staff. We are always working to make sure that our teachers post excellent results among the students. This clearly reveals a proven team of educators in the institution whose records are demonstrated through the students' results.

Proven Team of Educators

Our Facilities

It is hard to have a smoothly running school if you do not have the sufficient facilities.

At Alhidayah School, we have established a very convenient structure that is suitable for all learning activities. We have large classrooms, indoor playground, admin place, sports tools, teaching materials, and much more. This assures you that your child will be comfortable in their learning environment.

Our Facilities

Convenient

Accessibility of school facilities to both teachers and students is very important. Therefore, we have ensured that our students can easily access learning facilities while teachers can get the teaching materials at their disposal.

The facilities made for students have been designed in a way to be appealing to them. To ensure that the facilities are student-friendly we have kept the classes away from distractions and ensured there is adequate surrounding.

Student Friendly

Well Equipped

All the classes, indoor playground, and other places have been equipped with the necessary instruments for students learning.

Our Facilities

Safe

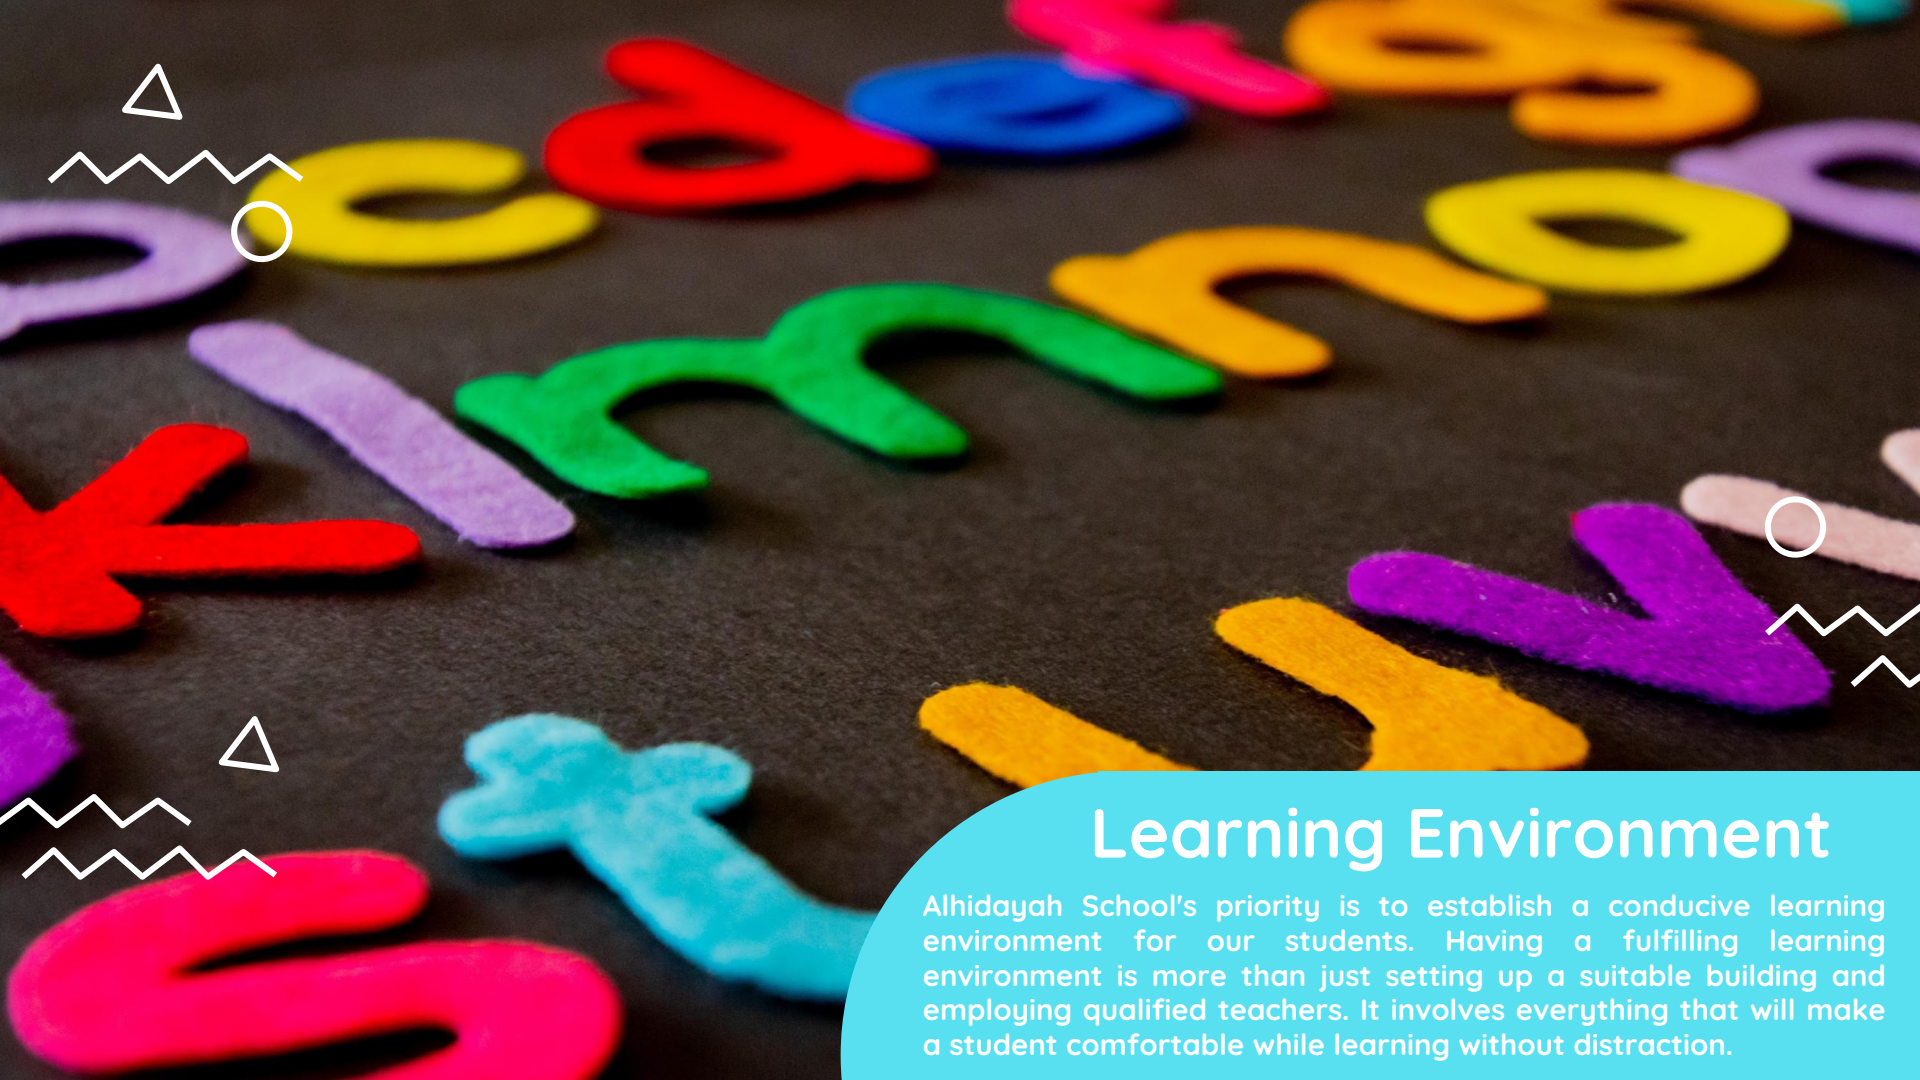

Safety is key to students when we were preparing the learning facilities. Therefore, our building has been constructed in a way that ensures maximum safety for all students, parents, teachers, and admin staff.

Alhidayah School has a building equipped with large rooms to accommodate the growing number of students. Large rooms also ensure that students have enough space while carrying out their practical activities.

Large Rooms

Indoor Playground

Guided entertainment, safe games and having fun time are all parts of our educational system. It ensures that the students are taught and raised in a place that they love. Because of this, we have prepared a special indoor playground.

Learning Environment

Alhidayah School's priority is to establish a conducive learning environment for our students. Having a fulfilling learning environment is more than just setting up a suitable building and employing qualified teachers. It involves everything that will make a student comfortable while learning without distraction.

Learning Environment

01

Learner-Centered Environment

The main reason for establishing a learning institution is to accommodate all the Muslim students. We ensure that our students are secure and comfortable while in the school. All the necessary resources for the students have been made easily accessible.

02

Learning By Doing

Our teachers offer real-life situations to the students and then assist them in solving the problem by leading hands-on exercises in which the students can learn the solutions.

03

Character-Building

Our students are guided to emerge a good character in every aspect of life. Since we are submitted under Islamic teachings, we ensure that all the students acquire Islamic values to develop strong characters.

04

Adaptive

To ensure bridging all the different gaps between the students in Alhidayah School, we have established an adaptive school environment. This strategy engages every student, analyzes their needs, and offers them in time solutions.

Learning Environment

05

Interactive

We have designed an interactive environment in our school to ensure that our students can comfortably interact among themselves. Our interactive programs are achieved through co-curriculum activities and class discussions.

06

Positive

Alhidayah School has a positive learning environment where students establish positive relationships with peers through communication, staying connected, and promoting class discussions. A positive environment will keep your children motivated to excel.

07

Collaborative

At Alhidayah School, we do not want one person excelling while others are failing. We aim to move our students to the same level of excellence. Therefore, we ensure that students have collaborative efforts in both co-curricular activities and classwork.

08

Supportive

Our students have are taught the art of supporting one another in life's academic and social affairs. We ensure that students learn how to appreciate and motivate one another. We also ensure every student has the courage to express themselves correctly to peers and teachers.

Extra Curriculum Activities

The students at Alhidayah School are encouraged to pursue their passion and develop their skills. This gives them the opportunity to express themselves while also teaching them how to collaborate as a group. Sports, coding programs, sporting events, and many other events are just a few of the extra curriculum activities we have established for our students.

Our community refers to our organization, school administrators, residents, elected representatives, teachers, staff members, and more. We have a strong bond between the school institution and the community. We have developed a good reputation among every community member, fostering strong relationships.

The school is situated among peaceful residents hence ensuring that the security of our students is well maintained. We also have a close relationship with the government security instruments, which is always there to provide the necessary attention to the security and safety of our students and staff.

Alhidayah School is surrounded by plenty of well-established businesses that offer various services to the institution. This is very important in ensuring that our students will not suffer a shortage of supply of important resources in the school. The relationship between parents, teachers, and students is very strong and highly embraced by the school to ensure that learning processes go smoothly.
